

Report of the Woodrow & Marjorie Tucker Research and Education Center

Worthy Master, Officers and Members of the Rhode Island State Grange,

It is my pleasure to submit my first report of the Research and Education Center.

The beginning of this Grange year had such promise and hope. As we got into the year, February and March everything came to an abrupt halt. All good intentions had to be placed on the back burner and we all had to isolate and take care of ourselves and our families.

I was so excited that so many of you had some history of your Granges! Looking back to the Spanish Flu and comparing now and then. I thought it was very interesting, looking back then and all we have now. I'm sure the communication now is better and faster than it was then, along with the fact that there was NO internet or TV.

My hope is that this coming year will be better and I will have more to report. I look forward to going in with others to organize and go through to figure out what can go and what to keep and the best way to keep them.

Please stay safe for there is more work to be done!

Fraternally Submitted

Tom Gotauco
